## VA Launches Accelerated Learning Program Pilot for Transitioning Servicemembers and Veterans

Online, in-person and blended training courses are offered at no cost and lead to industry-recognized certifications in six months or less

## VA is launching Accelerated Learning Programs (ALPs) to help transitioning Servicemembers and Veterans quickly develop new skills and earn certifications in high-demand career fields.

- ALPs are typically completed in less than six months and provide students with opportunities to learn online, in the classroom or in a combination of both.
- The pilot program is part of VA's new <u>Veterans Economic Communities Initiative</u>, which promotes education and employment opportunities for Veterans at the community level.

## The pilot ALP cohort focuses on developing skills and certifications needed for careers in information technology as part of the <u>President's TechHire initiative</u> launched this spring.

- ALPs do not involve use of Post-9/11 GI Bill benefits students can participate in these programs while also pursuing other programs of study utilizing Post-9/11 GI Bill benefits.
- <u>Applications will be accepted beginning August 17, 2015</u> seats are limited so apply early!

## ALPs use a "pay-for-success" model that incentivizes and compensates training providers based on their program graduation and career-placement rates.

- Each course is available at no cost and includes free referral and support services that leverage each training provider's vast employer network.
- See course details and descriptions below <u>visit the ALP website</u> to learn more:

Course Details	Description
